

# Covid-19 Informed Consent

## Immanuel Mother's Day Out

Thank you for your continued trust in our Mother's Day Out Program. As with the transmission of any communicable disease like cold or the flu, your child may be exposed to COVID-19, also known as "Coronavirus", at any time or in any place. Please be assured that we are following recommended personal protection and disinfection protocols to limit transmissions of all diseases in our classrooms and will continue to do so. Despite our careful attention to disinfection and use of person protection, there is still a chance that your child could be exposed to an illness while attending our program.

Although exposure is unlikely, do you accept the risk while your child attends our program? Yes  No
